Release Notes

Application: Telehealth Consult (Family)
New Version: tConsult v7.0.3
Release Date: 3/27/2014
Supersedes: 7.0.2

7.0 New Features

AFHCANmobile Application

See more patients. Do more business. Have more freedom.

With AFHCANmobile, telehealth just became easier. Use your iOS or Android device to consult on and create new cases from anywhere.

As a busy provider, you are not always at your desk. AFHCANmobile is for providers on the go like yourself. AFHCAN cases can now be accessed anywhere you are through the AFHCANmobile application designed for your smartphone. You can now consult on cases whether you are waiting for a meeting to start, have a few minutes to spare or receive a case notification while away from your desk. This newly released addition to the AFHCAN telehealth software suite is available for use on:

- iOS

- Android

Features in the initial release include:

Logging in and viewing cases in your inbox

Take a case from one of your groups

Search for a patient and create a new case

Consult on an existing case, add comments, photos or forms

Send the case to any provider on the system

Other features include:

- Set and use a 4 digit passcode for login
- Toggle case activity on/off
- Sending feedback from within the application
- Email a form to another user

Telehealth Consult Server

- The release of v7.0 contains new communication protocols for AFHCANmobile’s use.

System Requirements

Server

- If upgrading, Telehealth Consult Server software v7.0 or higher
- Microsoft Windows Server 2008 (x86 or x64)
- Microsoft SQL Server 2005 or 2008 (x86 or x64)
- Microsoft .NET Framework 4.0
- Telehealth Consult Web requires Google Chrome, Safari on iPad iOS 6, Microsoft Internet Explorer (8-10) or Mozilla Firefox

Cart

- If upgrading, Telehealth Consult Cart software v7.0 or higher
- Microsoft Windows 7 or Microsoft Windows XP SP3 (x86)
- Microsoft .NET Framework 4.0

Mobile

- iOS 6 & 7 on iPhone & iPad
- Android Ice Cream Sandwich & Jelly Bean

Compatibility

Telehealth Consult Server and Telehealth Consult Cart must both be running v7.0 to correctly communicate with each other. AFHCANmobile v1.0 will communicate to Telehealth Consult Server v7.0

Server Manager and all Organizations managed by that instance of Server Manager must all be at the same version of Telehealth Consult if your installation utilizes AD integration. This affects the AD Mapper Tool as well as any AD scheduled tasks.
